

How Clean? How Cold? How Dry? How Economical?

These are the questions to decide before you select a Refrigerator. If the comparisons you make are thorough and conclusive you will decide in favor of a

BOHN SYPHON REFRIGERATOR

The lining is fused porcelain-steel (a single piece in all but the largest models). This lining is far different from ordinary enamel paint. It will not crack or chip. The corners are round—no place for food particles or dirt to lodge. The drain is in front where it can be cleaned easily and frequently without removing the contents of the Refrigerator.

The Syphon System of rapid air circulation from ice to food compartments, together with the 10-layer, heat-resisting wall, (including Flaxinum, the exclusive Bohn insulation), holds the temperature very low.

Because of the Syphon System, no moisture condenses on the food. It is condensing moisture which contaminates foods in the ordinary refrigerator, causing butter or cream to smell and taste like bananas, onions, cheese, etc. Butter and other foods come fresh and fragrant from a Bohn Syphon. You can strike matches on the lining; it is so dry.

The original cost of a Bohn Syphon comes back to you in reduced ice bills. The superior insulation and the Syphon System both contribute to ice economy.

Let us demonstrate these and other Bohn points. Bohn Syphon and other Bohn Refrigerators are shown here in great variety, at prices from \$19.00 up. If you cannot call, write for a catalog.

HOTEL BELLECLAIRE
NEW YORK
Broadway at 77th St.
Surface Cars at Door
Subway at 79th St.
Only a few minutes from the shopping and theatrical District.

Did we not tell you back in those very cold winter months to "hide a wee"—that the sun and warmth and buds would come before we realized?

Well, here we are, and the Belleclaire is dressed up for the occasion. All is sunshine and smiles and good cheer.

As to that, however, if the Belleclaire was not always in a happy mood—always dispensing cheerfulness and home comforts, we would feel that our work was not being done well.

If we ever forget that hospitality, courtesy, prompt and cheerful service, good food, etc., are the chief elements in making a hotel popular and successful, then we will go out of the hotel business!

We ask your patronage of our dining rooms where we serve the best food to be had. The cooking is just fine, if I do say it myself; but I may be pardoned for saying it because I know what good cooking is. I can cook myself.

Bring your parties to the Belleclaire, before or after the theatre. Come around evenings when your own cook is out. You will get home cooking of the best kind.
